Dear Northgate Transit Hiring Team,

I'm writing to apply for the Bus Driver role with Northgate Transit. Getting passengers where they need to be is what I do every day as a bus driver with Redgum Coachlines, and I'm ready to bring that same reliability to your network.

In my current role I drive school runs, public route services, and local and extended charters, including the regional connector between Bendigo and Echuca. Pre- and post-trip checks, defect reporting and radio contact with the depot about delays are part of every shift, along with lost property reports and looking after passengers.

Before buses, I spent more than four years as a warehouse team leader and forklift operator with Kestrel Logistics, leading a shift crew of six and running pre-start safety meetings, and almost five years as a medium rigid delivery driver with Swiftline Couriers, meeting delivery time windows across Bendigo and nearby towns. Those years built the habits a passenger service runs on: vehicle checks before every shift, safety first, and paperwork done properly.

I'm looking for a long-term role where I can keep growing as a driver, and Northgate Transit's focus on dependable, passenger-first service is exactly the environment I want to be part of.

I'd welcome the chance to talk about how my driving, safety and customer service experience could fit your team. Thank you for considering my application. I look forward to hearing from you.

Kind regards,
Jordan Hale
